

I.F. HEALTH

Immigrant & Family Health, Inc.

ANNUAL REPORT 2020

What IF Health Came First?

MESSAGE FROM THE EXECUTIVE DIRECTOR:

IMMIGRANT AND FAMILY HEALTH, INC. CHAPEL HILL, NC

Dear Friends,

Thank you for taking the time to learn more about Immigrant and Family Health, Inc. and our work to helping friends, families, and immigrants in navigating our complex healthcare system.

Established in December of 2016, our vision was to find ways to positively impact immigrants and families in the Chapel Hill and Durham community.

With that in mind, 2020 has been a challenging year. With COVID-19 impacting much of our services, we have still been working towards finding ways on how we can best assist immigrants and families that need it the most. We hope to continue to find ways to further help those that need it the most. I want to thank each and every person who supported us and continues to support us today. If you or anyone you know is in need of assistance in navigating the healthcare system, please contact us and we will work diligently on your behalf to ensure your right to a healthy life.

Help us make a society where #IFHealthCameFirst.

In Health,

John Tuong

Immigrant and Family Health,
2020 Executive Director

OUR MISSION

Every day, many immigrants and their families face difficulties and hardships navigating the complex US health system. Others often have resources, but do not know that they are readily available.

We're on a mission to change that.

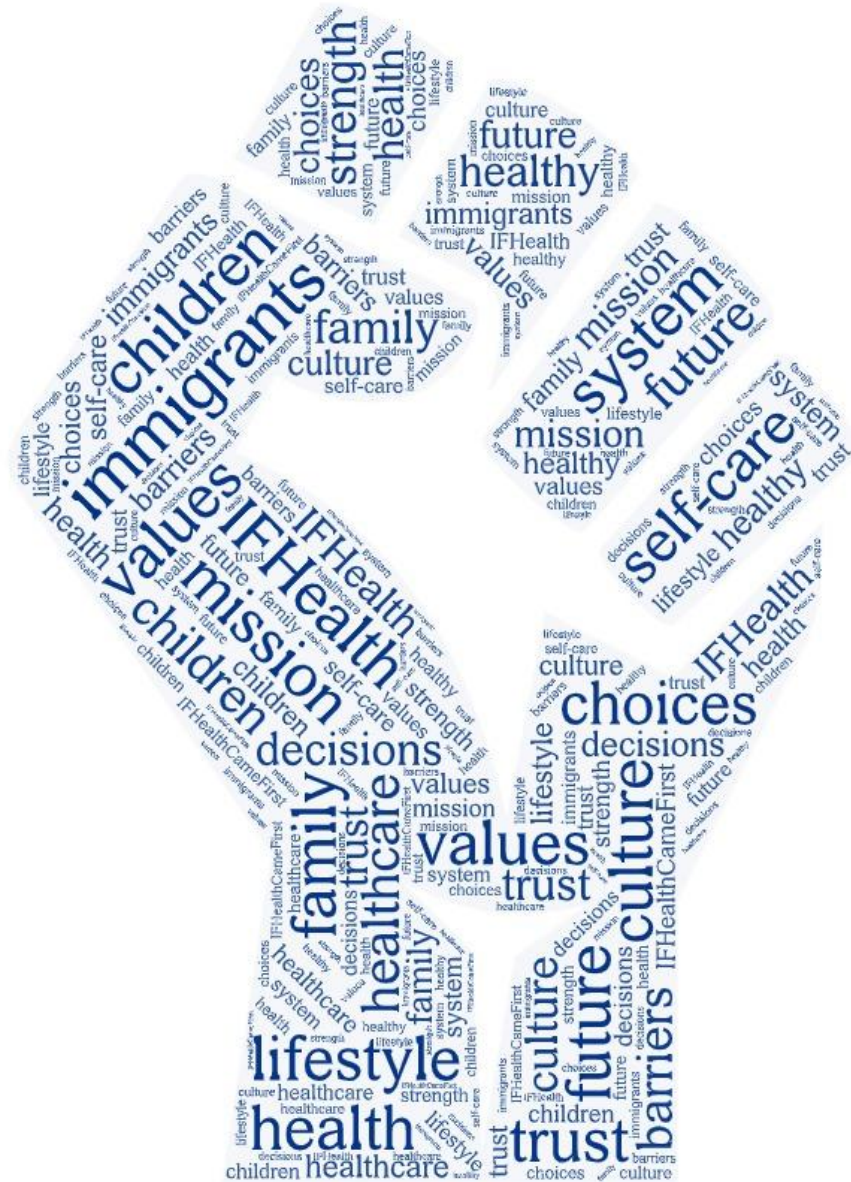

I.F. Health, Inc., aims to overcome barriers to quality health within immigrant communities and promote healthy lifestyles for all families.

We want to work diligently to break barriers in our complicated healthcare system by creating a friendlier atmosphere for families and immigrants. We hope to assist immigrants and their families in using the healthcare system to its fullest potential.

OUR VISION

We believe that prevention and awareness are the foundation of a holistic approach to health. We at I.F. Health, Inc. strive to create inclusive, engaging events that educate the public about preventative measures for living a healthy life. Through our health screenings, we link families and immigrants to information, tools, and community resources to increase health awareness and help bridge the gaps in the healthcare system.

We envision a community where everyone has equal access to quality healthcare, despite their background and/or ethnicity. A community where health is not a luxury, but a human right.

COMMUNITY WORK LET'S DO SOME WORK

HEALTH SCREENINGS

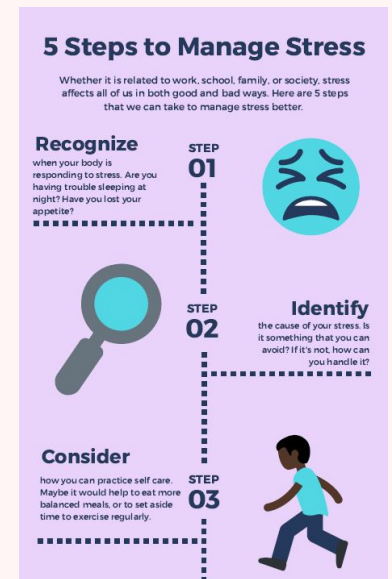

Health screenings are a large part of what we do as an organization. Providing free health screenings at health fairs, health conferences, community fairs, and events are essential in how we reach our community members. We are heavily involved in providing health screenings at the Durham Flea Market. We also provided screenings at an annual culture event, led by UNC student organization Lambda Phi Epsilon, called Lambda Night Market, where different cultures came together to cook and share food. However, due to COVID, we have been focused on providing resources online for 2020.

During our health screenings, we assist people in checking their blood pressure, body mass index, and weight. We believe these health status can improve with a healthy lifestyle, which is why we focus on focusing on these three measures. In addition to individual's health status, we provide infographics and brochures on how to lead a healthy lifestyle, along with resources in the community for follow up care. While we are not healthcare providers, we offer these preventative screenings and education for people in our community so they can be informed and make appropriate decisions for their own health.

INFOGRAPHICS AND EDUCATION

I.F. Health, Inc. prioritizes providing education and information to the people and communities that we serve. Through a combination of social media, community members, and infographics, we try our best to consistently provide information on a variety of topics. This year we shared 4 different resource awareness infographics which covered: leading health lifestyles, health resources, and immigrant resources. In order to be diverse as possible, we often translate our infographics, and at times, other mainstream content, in many different languages (Spanish, Korean, Vietnamese, Chinese, etc.). Let us know if you want one of our infographics in your language.

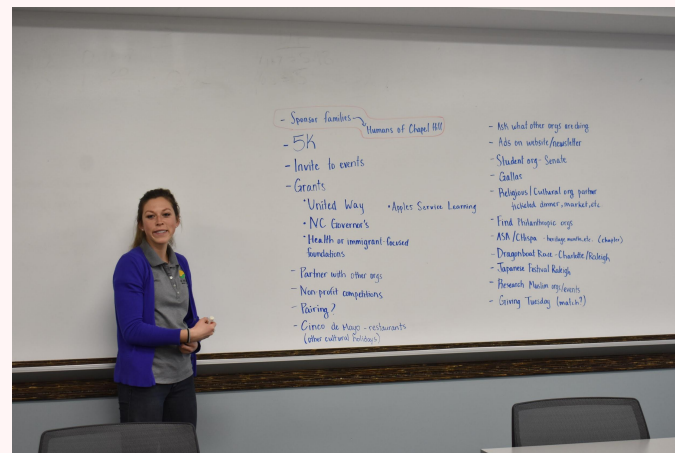

COMMUNITY WORK

HOW WE DO - WHAT WE DO

UNC CHAPEL HILL - AFFILIATE CHAPTER

The UNC Chapter is our first affiliated collegiate chapter and was created to aid in promoting our mission and to provide an opportunity for post-secondary students to gain public health experiences. Our UNC Affiliate Chapter works closely with our National Staff to continually think of new and better ways of how to connect with and to positively impact our community. The UNC Chapter is led by President, Deep Upadhyay, and has volunteers readily available to assist in programs, events, or health fairs. Our affiliate chapter is important in many ways and is vital in our success to reaching students, immigrants, and their families.

If you are interested in starting a chapter at your university, please contact us at info.ifhealth@gmail.com

COMMUNITY PARTNERSHIPS AND SPONSORS

As a health organization, it is important for us to connect with other organizations to better engage, collaborate, and help our surrounding community. For the past 4 years, I.F. Health, Inc. has attended several community health fairs, the most consistent one being the annual health fair at Saint Thomas More Church, a Catholic Church with a huge Latinx population, located in Chapel Hill. Saint Thomas More's Annual Health Fair is one of many events where we provide our health screenings.

Several individual donors and sponsors make our work possible. Most recently, we were generously supported by Ally Banking. They believe in our mission and have provided volunteer hours and financial support to our cause.

FINANCIALS: OUR 2020 BREAKDOWN

DONORS AND MONEY

As a non-profit, we thrive primarily off a combination of fundraisers and donations from our friends, families, and supporters.

A huge and wonderful thanks to all of our donors. You all make an impact on the community and we cannot do the work without your support.

Our costs include a variety of: website maintenance, vendor rentals, community events, as well as maintaining equipment to use for health screenings.

If you would like to donate to Immigrant and Family Health, Inc., please visit www.ifhealth.org/donate or find us on **Facebook**. Please also consider supporting us on **Amazon Smile**, set “Immigrant and Family Health, Inc.” of Chapel Hill, NC, as your charity and a portion of your purchases will be donated to I.F. Health, Inc. **at no additional cost to you**. The link to your left will bring directly to supporting us on Amazon Smile. Remember to shop through Amazon Smile! You can change your setting on your phone App as well to automatically shop from Amazon Smile.

I.F. Health, Inc. is a 501c3 non-profit; hence, all donors receive tax credit for their donations.

2020 Financial Income

The Board of Directors and the National Staff work hand in hand to ensure that Immigrant and Family Health, Inc., is an organization that fulfills its duty to the greater community. While the Board of Directors work to create the vision and mission of I.F. Health, the National Staff works to ensure those mission and vision are completed.

SINCE 2017, IMMIGRANT AND FAMILY HEALTH, INC. HAS:

Attended a total of 10 community health fairs

Provided over 200 free health screenings and workshops such as family services and a science workshop at a local elementary school

Reached more than 400 people in the community and have many volunteers

Shared 24 resource awareness infographics in 5 languages

Connected through Facebook, Twitter, and Instagram with over an average of 10,000 views

Conducted a Community Needs Assessment in NC for evidence-based programming

PLANS FOR 2021, HERE WE COME.

2021 VISION

Immigrant and Family Health, Inc. envisions a world where immigrants and families can easily overcome healthcare barriers through education and by taking full advantage of all available resources. We plan on continuing strong and growing our reach in 2021.

2021 GOALS

A few of our 2021 goals include:

Host our first I.F. Health, Inc. Immigrant Health Workshop, educating and informing students who may be navigators for the immigrant community on various health topics and resources

Reaching 200+ people through our community outreach events, with at least 150 people being immigrant clients, as well as increasing in sharing more infographics, community resources, and hosting more health screenings in diverse settings to increase reach of different ethnic groups

Continue to build, grow, and maintain our social media presence
